

# MSEA Safety Seminar

Dedicated to helping association members create a safer work environment

The DOT regulations require motor carriers to use cargo securement devices to prevent articles from shifting on or within loads, or falling from commercial motor vehicles. **Do you know the rules covering load securement?**

With the DOT enforcement a major concern for most companies with DOT registered vehicles, you need to make sure your drives follow the rules. If you have questions about the requirements for securing loads, then plan to attend a seminar offered by the MSEA and Sisk & Company that will cover the topic of load securement.

This training will cover the following:

- Identify and discuss the current rules on load securement
- DOT Interpretations
- Insight into how to comply with the rules
- Handouts you can use as reference

The seminar will be held at: \_\_\_\_\_  
\_\_\_\_\_

The date is: \_\_\_\_\_

The time is: Registration from \_\_\_\_\_; or register on line or call  
The seminar will run from (3.5 hours)

This seminar is **FREE for Sisk & Company clients.**  
For non-Sisk clients there is a \$50 per person charge, payable by check  
or cash or credit card at the door.

If interested in attending, register on line at
